EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

Insert -- This application is a 371 of PCT/GB03/03449 filed on July 8, 2003. --
after the title on page 1.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: claim 1 recites the steps of "forming end-sealed bags at the bag-forming station,...and after the step of forming the end- sealed bags, treating the bags adjacent the respective zipper strip profiles in order to secure the profiles to the first and second walls respectively and to form an openable and reclosable seal inside the bags." Moreover, claim 1 states "each bag having..., first and second end seals" as part of the "forming" step. This requirement of claim 1 (that its "treating" step "to secure the [zipper strip] profiles to the first and second walls" of the bag occurs after the step of "forming end-sealed bags") patentably distinguishes claim 1 from Van Erden, which discloses that the steps of sealing the zippers to the film and forming end seals on the bags are "simultaneous or nearly simultaneous,". Independent claim 10 is also patentably distinguishable from Van Erden, as claim 10 recites "means for treating the bags adjacent the respective zipper

strip profiles, located after the bag-forming station, to secure the profiles to the first and second walls." For the reasons described above, Van Erden neither teaches nor suggests this limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
